*** MRCA = most recent common ancestor
Y-DNA Testers
4

There is a 98.82\% probability that our MRCA lived 8 generations ago.
Johann Conrad is 8-9 generations back in the line of these $Y$-DNA testers.

## Johann Jacob

b. 30 Aug 1731 Erzhausen
d. 7 Apr 1809 Erzhausen

Hans Jacob (b.~1622 - d. 27 May 1664)
Johann Conrad (b. 4 April 1658 Darmstadt >d. $\sim 1715$ Bierbach)

[^0]
[^0]:    The lines of Craig, Sherry, and John Wanamaker are not represented by Y-DNA testing. But, the well-documented research of their Wannamaker families, in addition to that of the Y-DNA testers, has been extremely helpful in answering questions about our shared Wannemacher ancestry. The research is just as important as the Y-DNA results.
